An abscess is a confined collection of pus surrounded by inflamed tissue. Most abscesses are found on the extremities, buttocks, breast, axilla, groin, and areas. What CPT code would I use for incision and drainage of a blister? It’s not from a burn, I think the patient was overweight to the point he has. Wounds. 2013 Mar;25(3):58-60. Incision and drainage versus incision and drainage with primary closure and use of closed suction drain in acute abscesses.
